

RN Skills Checklist - Med/Surg Skills

Name: _____
 Classification: _____
 Total Years Experience: _____

SKILL LEVELS
 1 = no experience, theory only
 2 = Limited, supervision required
 3 = Acceptable proficiency
 4 = Independently proficient

Signature _____ Date _____

Indicate Clinical Skill Competency/Level of Proficiency for ALL procedures/equipment in last 12 mos.

	SKILL LEVEL					SKILL LEVEL			
	1	2	3	4		1	2	3	4
AGE SPECIFIC					PATIENT CARE continued				
Neonates - birth to 30 days					Femoral - Popliteal Bypass				
Infants - 30 days to 1 year					GI Bleeding				
Toddlers - 1 to 3 years					Isolation				
Preschool - 3 to 5 years					Ileostomy				
Older Children 5 to 12 years					Nephrectomy				
Adolescents 12 to 18 years					Obstructed Airway				
Young Adults 18 to 39 years					Oncology				
Middle Adults 39 to 64 years					Overdose, Substance Abuse				
Geriatrics 64+ years					Preparing Medications				
EXPERIENCE					Patient Controlled Analgesics				
Medical					Shock				
Telemetry					Spinal Cord Injury				
Oncology					Seizures				
Surgical					Thoracic Surgery				
Orthopedics					Death & Dying				
Intermediate					Family Intervention/Teaching				
Stepdown					Patient Teaching				
Med/Surg					Psychiatric Care				
Neurology					CARDIOVASCULAR				
CHARTING					Obtain 12-lead EKG				
Computer					Interpret Rhythm Strips				
DARE					Telemetry				
APIE					Permanent Pacer				
SOAPIE					Ultrasonic Doppler				
FOCUS					Patient/Family Teaching				
Discharge Planning					Other:				
Utilization Review					DRAINS				
Chart Review/Audit					Hemovac				
PATIENT CARE					Jackson Pratt				
Acute MI, Angina, CHF					Patient/Family Teaching				
AIDS, ARCS					DRESSINGS				
Aneurysms					Ace Wrap/Splints				
Burns					Change				
Carotid Endarterectomy					Transparent Occlusive				
Cardiac/Respiratory Arrest					Sterile Dressing				
CPR					Pressure Ulcers				
Craniotomy					Wound Irrigation				
Colostomy					Patient/Family Teaching				
CVA					ADMISSION				
Diabetic					Interview				
Near Drowning					Systems Assessment				
DTs/Alcohol Detoxification									

Expertise or Experience not Listed:

**GASTROINTESTINAL TUBES**

- Insertion
- Removal
- Blakemore-Balloon/Traction
- Ewal
- Gastrostomy (PEG)
- Jejunostomy
- Kaslow (Kantor)
- Miller-Abbott
- Nasogastric Suction - Levine
- Nasogastric Suction - Sump
- T-Tube
- Patient/Family Teaching

SKILL LEVEL			
1	2	3	4

INTRAVENOUS THERAPY

- Angiocath Insertion
- Blood Precautions
- Drawing Blood - Venous
- Heparin-lock
- Hickman/Broviac, Care of
- Infusion Monitor
- Infusion Pump
- Med Administration IM SQ PQ
- Hanging Blood & Blood Prod.
- Hyperalimentation Dressings
- Hyperalimentation Precautions
- Hyperalimentation Solutions
- IV Meds - Mixing
- Chemotherapy
- TPN
- CVP's Dressing/Measuring

1	2	3	4

MATERNAL CHILD CARE

- Assessment & Care of NB
- Fetal Monitoring
- Hysterectomy
- Infant Resuscitation
- Labor Assessment
- Labor Coaching
- Start & Maintain IV Therapy
- Post-Partum Care
- Preeclampsia
- Vaginal Exams
- Cesarean (assist & deliver)
- Vaginal (assist & deliver)

1	2	3	4

NEURO / ORTHO EQUIPMENT

- Amputation
- Arthroscopic Surgery
- Balanced Suspension
- Balkan Frame
- Bucks Extension
- Cast Care
- Casts, Soft
- Casts, Spika
- Cervical Devices, Other
- Circo-electric Bed
- Clinitron Bed
- Crutchfield tongs
- Crutch walking
- Halo Traction
- K Wires
- Total Knee/Hip Replacement
- Roto bed
- Skeletal Traction - other
- Stryker Frame
- TENS

1	2	3	4

PEDIATRICS

- Pediatric Meds Conversion
- IV Therapy
- Family Teaching
- Development Theory Age Related
- Chronic Illness/Disability

SKILL LEVEL			
1	2	3	4

RENAL / GU

- Catheters - foley
- Catheters - 3 way foley
- GU Irrigations - Continuous
- GU Irrigations - Intermittent
- Nephrostomy tube
- Dialysis - hemo
- Dialysis - peritoneal
- Renal Transplant
- Renal Trauma
- Suprapubic Tube
- Tidal Drainage

1	2	3	4

RESPIRATORY THERAPY

- Apnea Monitor
- Chest Tubes H2O Seal
- Chest Tubes - Suction
- Cough & Deep Breathing Exercise
- Incentive Spirometer
- Masks, Face, Rebreather
- Non-Rebreather, Venturi, Cannula
- Nasal, Nasotracheal suctioning
- O2 Equipment
- Postural Drainage & Percussion
- Suctioning Oropharyngeal
- Tracheostomy Care
- Tracheostomy Tubes, Cuffed
- Chronic Disease Physiology

1	2	3	4

SURGICAL CARE

- Surgical Prep
- Pre-op Teaching
- Consents
- Post-op monitoring

1	2	3	4

OTHER

- Isolation Precautions
- Diabetic Teaching
- Accu Check
- Knowledge of Normal Lab Values
- Electrolyte Imbalance/Replacement
- Other:
- Other:
